

COMMUNITY INVOLVEMENT

2021 IN REVIEW

At Woodsboro Bank, it is our belief that strength and growth within the community comes first from a commitment to knowing its people. We know Frederick because we are Frederick. We live here, we work here, we give here. The relationships we have built through generations have enabled us to better understand how we can make a true difference and move forward, as a community. Commitment to our community is at the heart of who we are. Here's a look at our involvement in our community throughout 2021.

The One Woodsboro Team!

Each member of the Woodsboro Bank Team receives 24 hours of paid volunteer time annually outside of their personal organizational involvement. That's over 1,400 hours of helping our community each year!

It's a two way street...

Our colleagues are involved in a wide variety of organizations in our community. Sometimes they ask for our help, other times we ask for theirs. We work together as a team to make the biggest impact we can.

So, what are we doing?

Here is a breakdown our donations this year. The largest category we give to is clubs and organizations that go on and do further work to benefit our community such as leadership groups, service clubs and similar organizations.

*includes organizations that benefit agriculture, animals, nature preservation, senior citizens, women & family services, and local political organizations.
