

Community Involvement

2022

At Woodsboro Bank, it is our belief that strength and growth within the community comes first from a commitment to knowing its people. We know Frederick because we are Frederick. We live here, we work here, we give here. The relationships we have built through generations have enabled us to better understand how we can make a true difference and move forward, as a community. Commitment to our community is at the heart of who we are. Here's a look at our involvement in our community throughout 2021.

THE ONE WOODSBORO TEAM

Each member of the Woodsboro Bank Team receives 24 hours of paid volunteer time annually outside of their personal organizational involvement. That's over 1,400 hours of helping our community each year!

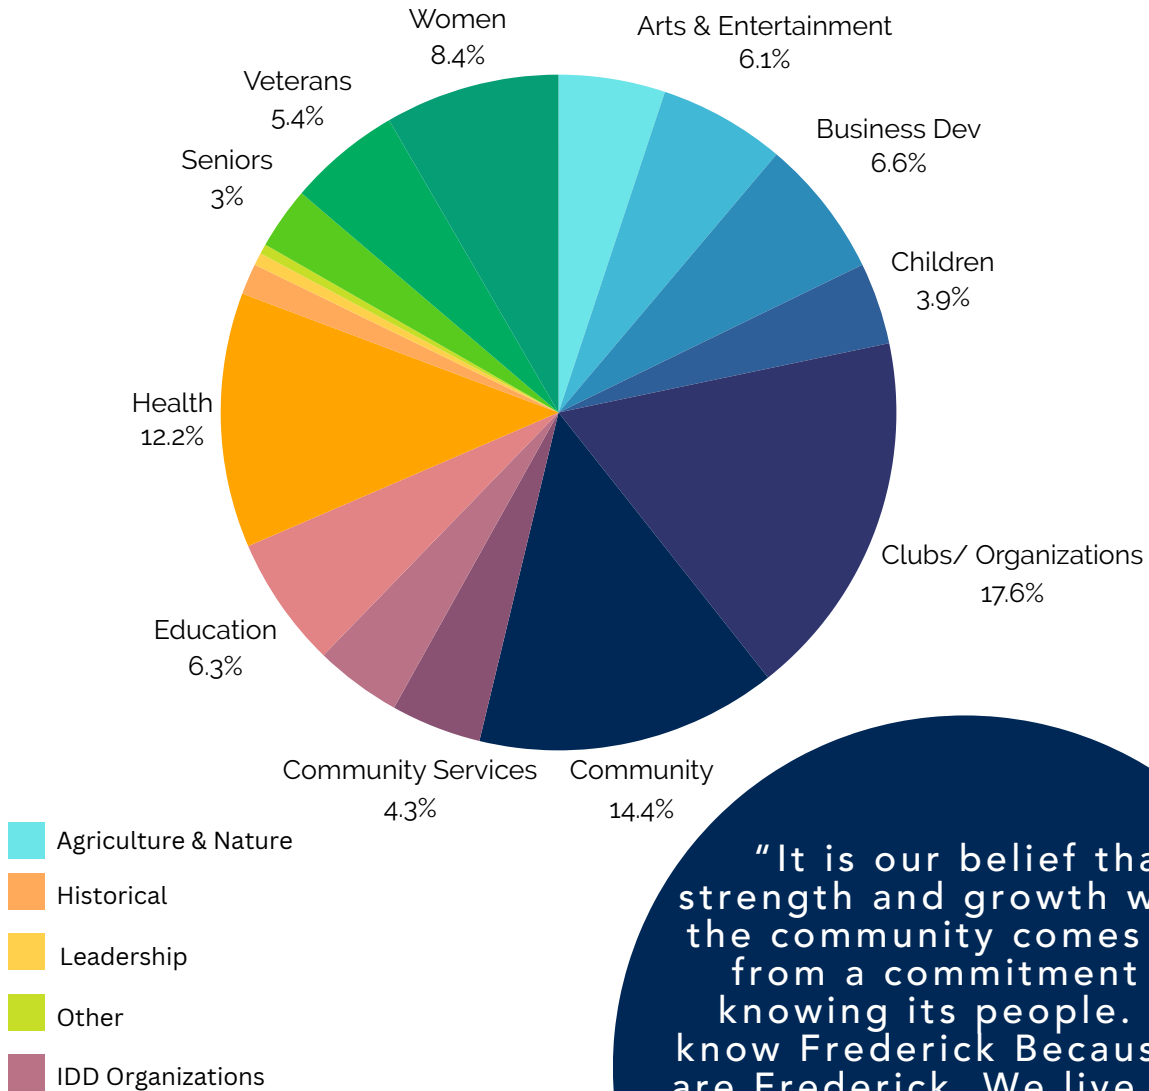

IT'S A TWO WAY STREET

Our colleagues are involved in a wide variety of organizations in our community. Sometimes they ask for our help, other times we ask for theirs. We work together as a team to make the biggest impact we can.

OUR LATEST NUMBERS

Below is a breakdown of our sponsorships and donations this year. The largest category we give to is clubs and organizations that go on and do further work to benefit our community such as leadership groups, service clubs and similar organizations. Working with these types of organizations helps our money to go farther when paired with the volunteer power behind these groups.

"It is our belief that strength and growth within the community comes first from a commitment to knowing its people. We know Frederick Because we are Frederick. We live here, we give here!"
